HELPS SOLVE MULTIPLE BURGLARIES IN BLOOMINGTON, IN — INCLUDING THE BREAK-IN OF AN OFFICER'S HOME

Imagine you just finished your ten-hour shift protecting the citizens of your community and you come home to find your house has been burglarized. Your uniforms, body armor and other police gear are gone along with your personal belongings.

This was the reality for an officer in Bloomington, Indiana. But fortunately for him, the Bloomington Police Dept. (BPD) uses Street Smart™ to help fight crime. Street Smart is the technology solution that creates another layer of situational awareness with real-time data feeds, maps, discussion boards, bulletins and case management tools.

Street Smart was instrumental in BPD making three arrests and subsequently recovering several stolen vehicles and a large amount of stolen property. Within 48 hours, BPD and Monroe County Sheriff's Office (MCSO) cleared the crimes, made the arrests and returned the stolen goods to the victims.

The success of this entire case was based on criminal analysis and information sharing made possible through the use of Street Smart. The level of cooperation and real-time information sharing would not have been possible without it.

10 Burglaries
3 Stolen Vehicles
3 Arrests
Under 48 Hours

JULY 22
- **Bloomington Police Dept. (BPD) detects possible crime series, creates Street Smart discussion board**
- BPD detective obtains suspect photos and creates Street Smart bulletin

JULY 23
- **Monroe County Sheriff's Office (MCSO) creates Street Smart discussion board for series of county-wide burglaries**
- BPD detective reviews MCSO discussion board, identifies car shown in discussion board as one stolen in a BPD burglary case

JULY 24
- **BPD disseminates photos in social media, gets positive identification of possible suspect**
- Two suspects taken into custody: on interview, they reveal information about location of stolen property
- Upon follow-up, a third suspect is taken into custody
